

Author Index

- Akutagawa, S.
Asymmetric synthesis by metal BINAP catalysts 171
- Algarra, F., Corma, A., Garcia, H. and Primo, J.
Acid zeolites as catalysts in organic reactions.
Highly selective condensation of 2-alkylfurans with carbonylic compounds 119
- Alvarez, J., Rosal, R., Sastre, H. and Díez, F.V.
Characterization and deactivation of sulfided red mud used as hydrogenation catalyst 259
- Alvaro, M., Corma, A., García, H. and Valencia, S.
Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon-carbon double bond cleavage 7
- Argirov, O.K., see Christoskova, St.G. 219
- Back, M.H., see Bajus, M. 61
- Bajus, M. and Back, M.H.
The use of carbon catalysts and of nitrous oxide in promoting the conversion of methane 61
- Barthomeuf, D., see Derewinski, M. 79
- Beltrame, P., Conte, E., Forni, L. and Zuretti, G.
Screening of solid acid catalysts for the condensation of acetaldehyde with *o*-xylene 143
- Boehm, H.P., see Kuznetsova, N.I. 41
- Brégeault, J.-M., see Duprey, E. 89
- Burgers, M.H.W., see Creighton, E.J. 275
- Cardona, F., Gnep, N.S., Guisnet, M., Szabo, G. and Nascimento, P.
Reactions involved in the alkylation of isobutane with 2-butene and with propene on a USHY zeolite 243
- Cerveny, L., see Kluson, P. 13
- Cerveny, L., see Paseka, I. 33
- Christoskova, St.G., Danova, N., Georgieva, M., Argirov, O.K. and Mehandzhiev, D.
Investigation of a nickel oxide system for heterogeneous oxidation of organic compounds 219
- Conte, E., see Beltrame, P. 143
- Corma, A., see Alvaro, M. 7
- Corma, A., see Algarra, F. 119
- Creighton, E.J., Burgers, M.H.W., Jansen, J.C. and Van Bekkum, H.
Vapour-phase hydrodehalogenation of chlorobenzene over platinum/H-BEA zeolite 275
- Danova, N., see Christoskova, St.G. 219
- Delamar, M., see Duprey, E. 89
- Derewinski, M. and Barthomeuf, D.
High thermal stability of SAPO-40 in *n*-octane cracking 79
- Díez, F.V., see Alvarez, J. 259
- Duprey, E., Maquet, J., Man, P.P., Manoli, J.-M., Delamar, M. and Brégeault, J.-M.
Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
- Fan, L., see Shao, C. 1
- Fărcașiu, D. and Li, J.Q.
Preparation of sulfated zirconia catalysts with improved control of sulfur content 97

Subject Index

- Acetic acid
Ketones from monocarboxylic acids: Catalytic
ketonization over oxide systems 209
- Acid strength
Highly active catalyst of NiO-ZrO₂ modified
with H₂SO₄ for ethylene dimerization 127
- Acid zeolites
Acid zeolites as catalysts in organic reactions.
Highly selective condensation of 2-alkylfurans
with carbonylic compounds 119
- Acrylic acid
Pronounced catalytic activity of
Fe_{0.08}Cs_{2.5}H_{1.26}PVMo₁₁O₄₀ for direct oxidation
of propane into acrylic acid 165
- Alkene oxidation
Oxidations involving phosphate species
supported on TS-1: a novel class of grafted
catalysts 89
- Allylamine
Asymmetric synthesis by metal BINAP
catalysts 171
- Asymmetric synthesis
Asymmetric synthesis by metal BINAP
catalysts 171
- Benzene partial hydrogenation
Selective hydrogenation over ruthenium
catalysts 13
- Bimetallic catalyst
Selective methanol synthesis from CO₂/H₂ on
new SiO₂-supported PtW and PtCr bimetallic
catalysts 1
- BINAP
Asymmetric synthesis by metal BINAP
catalysts 171
- Biodegradable polymers
Asymmetric synthesis by metal BINAP
catalysts 171
- 1,1-bis(3,4-dimethylphenyl)ethane
Screening of solid acid catalysts for the
condensation of acetaldehyde with *o*-
xylene 143
- Brønsted acidity
Vapour-phase hydrodehalogenation of
chlorobenzene over platinum/H-BEA
zeolite 275
- Carbon catalyst
The use of carbon catalysts and of nitrous oxide
in promoting the conversion of methane 61
- Carbon catalysts
Promotion effect of carbon on the oxidation of
ferrous ions by oxygen in the presence of sodium
nitrite 41
- Carbon cocatalyst
Promotion effect of carbon on the oxidation of
ferrous ions by oxygen in the presence of sodium
nitrite 41
- Carbon dioxide
Selective methanol synthesis from CO₂/H₂ on
new SiO₂-supported PtW and PtCr bimetallic
catalysts 1
- Carbon monoxide oxidation
Preparation of gold in Y-type zeolite for carbon
monoxide oxidation 53
- Carbon surface modification
Promotion effect of carbon on the oxidation of
ferrous ions by oxygen in the presence of sodium
nitrite 41
- Carbonyl group selective hydrogenation
Selective hydrogenation over ruthenium
catalysts 13
- Catalyst characterization (ESR/IR/XPS)
Investigation of a nickel oxide system for
heterogeneous oxidation of organic
compounds 219
- Catalyst preparation
Selective methanol synthesis from CO₂/H₂ on
new SiO₂-supported PtW and PtCr bimetallic
catalysts 1
- Catalyst preparation (impregnation)
Preparation of sulfated zirconia catalysts with
improved control of sulfur content 97
- Cerium oxide
Ketones from monocarboxylic acids: Catalytic
ketonization over oxide systems 209
- Chiral drug
Asymmetric synthesis by metal BINAP
catalysts 171

- Chiral ligand
Asymmetric synthesis by metal BINAP catalysts 171
- Chiral terpene
Asymmetric synthesis by metal BINAP catalysts 171
- Chlorobenzene
Vapour-phase hydrodehalogenation of chlorobenzene over platinum/H-BEA zeolite 275
- Coking
Vapour-phase hydrodehalogenation of chlorobenzene over platinum/H-BEA zeolite 275
- Coprecipitation
Highly active catalyst of NiO-ZrO₂ modified with H₂SO₄ for ethylene dimerization 127
- Cracking
High thermal stability of SAPO-40 in n-octane cracking 79
- Cycloalkenes
Selective hydrogenation over ruthenium catalysts 13
- Deactivation
Activity and deactivation behavior of various zeolite catalysts 107
Characterization and deactivation of sulfided red mud used as hydrogenation catalyst 259
- Differential thermal analysis
Highly active catalyst of NiO-ZrO₂ modified with H₂SO₄ for ethylene dimerization 127
- Epoxidation
Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon-carbon double bond cleavage 7
- Epoxide opening
Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon-carbon double bond cleavage 7
- ESCA
Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
- Ethene dimerization
Highly active catalyst of NiO-ZrO₂ modified with H₂SO₄ for ethylene dimerization 127
- Ethylbenzene disproportionation
Activity and deactivation behavior of various zeolite catalysts 107
- Friedel-Crafts alkylation
Acid zeolites as catalysts in organic reactions.
Highly selective condensation of 2-alkylfurans with carbonylic compounds 119
- Furan derivatives
Acid zeolites as catalysts in organic reactions.
Highly selective condensation of 2-alkylfurans with carbonylic compounds 119
- Gold
Preparation of gold in Y-type zeolite for carbon monoxide oxidation 53
- Heteropoly compounds
Pronounced catalytic activity of Fe_{0.08}Cs_{2.5}H_{1.26}PVMO₁₁O₄₀ for direct oxidation of propane into acrylic acid 165
- Homogeneous catalysis
Asymmetric synthesis by metal BINAP catalysts 171
- Hydrodechlorination
Vapour-phase hydrodehalogenation of chlorobenzene over platinum/H-BEA zeolite 275
- Hydrogenation
Selective methanol synthesis from CO₂/H₂ on new SiO₂-supported PtW and PtCr bimetallic catalysts 1
Asymmetric synthesis by metal BINAP catalysts 171
Characterization and deactivation of sulfided red mud used as hydrogenation catalyst 259
- Hydrogen peroxide
Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
Oxidation of propylamine over titanium silicate molecular sieves 231
- Hydroxyalkylation
Acid zeolites as catalysts in organic reactions.
Highly selective condensation of 2-alkylfurans with carbonylic compounds 119
- Impregnation
Preparation of sulfated zirconia catalysts with improved control of sulfur content 97
- Ion exchange
Preparation of gold in Y-type zeolite for carbon monoxide oxidation 53
- Iron
Pronounced catalytic activity of Fe_{0.08}Cs_{2.5}H_{1.26}PVMO₁₁O₄₀ for direct oxidation of propane into acrylic acid 165
- Iron(II) oxidation
Promotion effect of carbon on the oxidation of ferrous ions by oxygen in the presence of sodium nitrite 41
- Isobutane alkylation
Reactions involved in the alkylation of isobutane with 2-butene and with propene on a USHY zeolite 243
- Isomerization
Preparation of sulfated zirconia catalysts with improved control of sulfur content 97

- Asymmetric synthesis by metal BINAP catalysts 171
- Isoprenoid amine
 - Asymmetric synthesis by metal BINAP catalysts 171
- Ketonization
 - Ketones from monocarboxylic acids: Catalytic ketonization over oxide systems 209
- β -Lactam antibiotics
 - Asymmetric synthesis by metal BINAP catalysts 171
- Manganese oxide
 - Ketones from monocarboxylic acids: Catalytic ketonization over oxide systems 209
- (-)-Menthol
 - Asymmetric synthesis by metal BINAP catalysts 171
- Methane conversion
 - The use of carbon catalysts and of nitrous oxide in promoting the conversion of methane 61
- Methane coupling
 - The use of carbon catalysts and of nitrous oxide in promoting the conversion of methane 61
- Methane pyrolysis
 - The use of carbon catalysts and of nitrous oxide in promoting the conversion of methane 61
- Methanol synthesis
 - Selective methanol synthesis from CO_2/H_2 on new SiO_2 -supported PtW and PtCr bimetallic catalysts 1
- Methylcyclopentane
 - Preparation of sulfated zirconia catalysts with improved control of sulfur content 97
- Nickel oxide
 - Investigation of a nickel oxide system for heterogeneous oxidation of organic compounds 219
- Nickel oxide-zirconium oxide
 - Highly active catalyst of NiO-ZrO_2 modified with H_2SO_4 for ethylene dimerization 127
- Nitrous oxide
 - The use of carbon catalysts and of nitrous oxide in promoting the conversion of methane 61
- n-Octane
 - High thermal stability of SAPO-40 in n-octane cracking 79
- Nuclear magnetic resonance analysis of ^{31}P
 - Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
- Oxidation
 - Pronounced catalytic activity of $\text{Fe}_{0.08}\text{Cs}_{2.5}\text{H}_{1.26}\text{PVMo}_{11}\text{O}_{40}$ for direct oxidation of propane into acrylic acid 165
 - Investigation of a nickel oxide system for heterogeneous oxidation of organic compounds 219
 - Oxidation of propylamine over titanium silicate molecular sieves 231
 - Oxidation with oxygen
 - Promotion effect of carbon on the oxidation of ferrous ions by oxygen in the presence of sodium nitrite 41
- Oxides
 - Ketones from monocarboxylic acids: Catalytic ketonization over oxide systems 209
- Oxime
 - Oxidation of propylamine over titanium silicate molecular sieves 231
- Phenylethylenes
 - Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon-carbon double bond cleavage 7
- Phosphate-modified TS-1
 - Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
- Phosphato-oxoperoxotungstate catalysts
 - Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
- Platinum/H-BEA zeolite
 - Vapour-phase hydrodehalogenation of chlorobenzene over platinum/H-BEA zeolite 275
- Potentiometric titration
 - Determination of the surface area of ruthenium catalysts by redox titration in liquid suspension with potentiometric indication 33
- Preparation of ruthenium catalysts
 - Determination of the surface area of ruthenium catalysts by redox titration in liquid suspension with potentiometric indication 33
- Primary amine
 - Oxidation of propylamine over titanium silicate molecular sieves 231
- Propane
 - Pronounced catalytic activity of $\text{Fe}_{0.08}\text{Cs}_{2.5}\text{H}_{1.26}\text{PVMo}_{11}\text{O}_{40}$ for direct oxidation of propane into acrylic acid 165
- Reaction mechanism
 - Investigation of a nickel oxide system for heterogeneous oxidation of organic compounds 219
- Red mud
 - Characterization and deactivation of sulfided red mud used as hydrogenation catalyst 259
- Rhodium
 - Asymmetric synthesis by metal BINAP catalysts 171
- Ruthenium
 - Asymmetric synthesis by metal BINAP catalysts 171

- Ruthenium black
Determination of the surface area of ruthenium catalysts by redox titration in liquid suspension with potentiometric indication 33
- Ruthenium catalyst
Selective hydrogenation over ruthenium catalysts 13
- Ruthenium catalysts
Determination of the surface area of ruthenium catalysts by redox titration in liquid suspension with potentiometric indication 33
- SAPO-40
High thermal stability of SAPO-40 in n-octane cracking 79
- Scanning electron microscopy
Characterization and deactivation of sulfided red mud used as hydrogenation catalyst 259
- Semibatch reactor
Screening of solid acid catalysts for the condensation of acetaldehyde with *o*-xylene 143
- Sodium nitrite
Promotion effect of carbon on the oxidation of ferrous ions by oxygen in the presence of sodium nitrite 41
- Solid acid catalysts
Screening of solid acid catalysts for the condensation of acetaldehyde with *o*-xylene 143
- Solvent
Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon-carbon double bond cleavage 7
- Stability (thermal)
High thermal stability of SAPO-40 in n-octane cracking 79
- Sulfate
Preparation of sulfated zirconia catalysts with improved control of sulfur content 97
- Sulphate modification
Highly active catalyst of NiO-ZrO₂ modified with H₂SO₄ for ethylene dimerization 127
- Surface area determination
Determination of the surface area of ruthenium catalysts by redox titration in liquid suspension with potentiometric indication 33
- Titanium Beta
Influence of the solvent on the titanium beta catalyzed oxidation of phenylethylenes without carbon-carbon double bond cleavage 7
- Titanium silicalite-1
Oxidations involving phosphate species supported on TS-1: a novel class of grafted catalysts 89
- Titanium silicates
Oxidation of propylamine over titanium silicate molecular sieves 231
- Unsaturated alcohols
Selective hydrogenation over ruthenium catalysts 13
- USHY
Reactions involved in the alkylation of isobutane with 2-butene and with propene on a USHY zeolite 243
- X-ray diffraction
Highly active catalyst of NiO-ZrO₂ modified with H₂SO₄ for ethylene dimerization 127
- Zeolite
Preparation of gold in Y-type zeolite for carbon monoxide oxidation 53
- Zeolites
High thermal stability of SAPO-40 in n-octane cracking 79
Activity and deactivation behavior of various zeolite catalysts 107
Screening of solid acid catalysts for the condensation of acetaldehyde with *o*-xylene 143
Reactions involved in the alkylation of isobutane with 2-butene and with propene on a USHY zeolite 243
- Zirconia
Preparation of sulfated zirconia catalysts with improved control of sulfur content 97
